DHUMC Revised In-Person Worship Guidelines

We have revised the guidelines for Worship and all Gatherings in the DHUMC building. These practices will begin on Sunday, June 13th, and moving forward until it becomes necessary to adapt them for some reason.

- **Mask wearing is now a personal choice**. With many of us vaccinated, and fewer reported cases of the COVID virus, we feel it is now safe and responsible to allow folks to choose their preference for wearing a mask. We will still have masks available for anyone who wishes to wear a mask and want folks to wear their makes if they are more comfortable doing so.
- There will **no longer be temperature checks** at the door, but we are asking everyone to please sign-in to help with attendance and contact tracing should it become necessary. (There will be multiple sheets available so there will not be a line at the door.)
- **Hymnal, Bibles and Pencils are now replaced in the pews** that are available for seating.
- **We will still be using every other pew.** We are asking that responsible social distance be maintained and that the back pews remain closed. **Goal**: We will resume sitting in the back rows once the capacity of available seating is reached!
- **Hand sanitizing Stations will remain available** throughout the building for your frequent use.
